**BERTL's Best and BERTL Exceptional 2009**  
For over 15 years BERTL Inc. has been the primary source of objective, independent product evaluation reports and comparative analysis on digital imaging devices and workflow solutions. BERTL's evaluation reports, customer satisfaction research, awards and product ratings are undertaken entirely at BERTL's expense for the benefit of its worldwide subscriber base. [www.bertl.com](http://www.bertl.com)

**Better Buys for Business Editor's Choice 2006, 2007, 2008 and 2009**  
Better Buys for Business is a leading independent authority on document imaging equipment ( copiers, printers, faxes and scanners). To assure its independence, Better Buys for Business accepts no advertising - revenues are derived solely from the sales of the its reports. [www.betterbuys.com](http://www.betterbuys.com)

**BLI - Highly Recommended 2007, 2008, and Recommended 2009**  
For over 45 years, Buyers Laboratory Inc (BLI) has been a source of unbiased and reliable intelligence for the imaging industry. Although originally based in US, in 2005, BLI launched its international division with office in Hong Kong and London. BLI also provides certification testing, rating product on their ability to meet various benchmarks for reliability and performance. [www.buyerslab.com](http://www.buyerslab.com)

## THINGS TO CONSIDER WHEN BUYING

### Cost

The ongoing running costs of MFP's often overlooked when making purchase decisions. The impact of doing this could result in your running costs adding up to two or three times the original purchase price. Companies both large and small can make significant savings with Kyocera.

### Reliability

Kyocera introduced the cartridge-free imaging concept in 1992. This allows MFP's to create less waste, have a lower comparable cost per print and less downtime, making them up to 50% less expensive to operate than comparative models and increase reliability.

### Support

Kyocera's support program has been developed around our customers and reaches far beyond service cells, pro-active maintenance, fleet rationalisation strategies and recycling programs together with our award-winning reliability provide one of the most effective support networks in the market.
