FULL SPEED AHEAD FOR OFFICE PRODUCTIVITY.

The success and profitability of business depends more and more on the fast and reliable processing of information. That is where the new KYOCERA TASKalfa office document multi-functional devices can give you and your business a decisive edge.

The new TASKalfa-620 and the TASKalfa-820 combine high-speed scanning, printing and copying with large paper capacities and an excellent selection of finishing options. That makes these powerful performers perfect for keeping the work flowing in any high-volume office environment.

Widescreen touch panel

The touch panel menus have been optimised for even faster access to the functions you need. Further-more, it has an easy-to-read screen that is adjustable for ambient light conditions.

EFFICIENT AND RELIABLE

With upto 82 pages per minute, these monochrome multi-functional devices offer high-speed processing for all your printouts and copies. Their intuitive controls and large capacity hard disk drives ensure that they keep up that fast pace for all of your document management needs. And thanks to the long-life components and the low energy consumption, the TASKalfa-620 and TASKalfa-820 are also highly economical. Whether you use them as departmental multi-functional devices or in a centralised printing department, their power and durability will keep the work flowing smoothly in any high-volume environment, such as government offices, universities and international corporations.

TASKalfa-620/ TASKalfa-820 Highlights:

- Upto 62/82 pages per minute in a4 and up to 31/41 pages per minute in a3
- Time to first copy 3.6/2.9 seconds or less
- 128 MB RAM + 40 GB HDD memory and storage
- Optional print and scan functionality
- 1,800 dpi level x 600 dpi print resolution
- 4,100 sheet capacity, expandable to 8,100 sheets
- Modular finishing solutions
- One-pass duplex document processor with a capacity of up to 260 sheets
- Optional Data Security Kit
- Long-life components provide exceptional efficiency and reliability

FLEXIBILITY, RELIABILITY AND EFFICIENCY FOR TODAY AND TOMORROW.

COPY – FOR HIGH-VOLUME REPRODUCTION

The TASKalfa-620 and TASKalfa-820 are fast, highly efficient copiers, and thanks to their large capacity hard disk drive and efficient software, they also provide professional document management capabilities. Their memory capacity offers the space to store multiple large-scale copying jobs, including the desired finishing options, further speeding up your office work flow.

SYNERGY PRINT BOX: Ensure faster access to frequently used forms and master texts. These multi-functional devices provide upto 100 pre-defined boxes on the hard disc drive that can be assigned to specific employees, departments or projects. Perfect for storing frequently used documents, the synergy print box also allows you to combine upto 10 documents from one box. And since each box can be protected with its own password, security is never an issue.

FORM BOX: Simplify your use of standard documents by scanning forms and saving them in the form box. Then simply access them through the convenient list of forms that appears in the menu.

JOB RESERVATION: Keep your office workflow at an optimum level. While the TASKalfa-620 and TASKalfa-820 are processing a job, they can prepare up to nine other jobs simultaneously.

Print – The Speed And Quality You Need

These multi-functional devices can be easily integrated into any network environment for use as fast and efficient network printers. Not only do they handle large volumes easily and quickly, KYOCERA's long-life components help to ensure that you get exceptional print quality throughout all your print runs. And to secure your output the watermark function helps to protect documents by embedding a watermark on documents. This watermark appears clearly on the copy when the original gets duplicated. With the optional hard disk, these multi-functional devices open up a whole range of further document management options.

PRIVATE PRINTING: Confidential documents can be stored on the hard disk drive and protected with a pin code and then called up at any time directly at the machine by entering the code.

QUICK COPY: Gives quick access to recently printed documents so that extra copies are always available.

JOB STORAGE: Stores frequently used documents such as templates on the hard disk.

VIRTUAL MAILBOX: Every employee can have a virtual mailbox for storing print jobs that they can access directly at the machine by using the touch panel. The hard disk drive offers enough space for upto 255 virtual mailboxes.

PROOF AND HOLD: Enables first drafts to be checked for errors before the entire job is printed.

SCAN – FULL SCANNING FLEXIBILITY

With their high-speed scanning (upto 110 ipm) and their capability to carry out double-sided scans from a single path, the TASKalfa-620 and TASKalfa-820 can handle large workloads with the greatest efficiency. The scanned documents are quickly converted into the file formats tiff or pdf, making them immediately accessible to your entire range of electronic document processing. Send them easily to any computer on your network or directly to a central server for archiving. Or speed up your business communications by sending the scanned image as an email attachment – right from the multi-functional device.

DATA SECURITY KIT

The optional data security kit is there to help all those businesses and organisations where data security is of the utmost importance. With the addition of the Kyocera data security kit, documents are automatically deleted from the device's memory and hdd once they have been printed, copied or scanned. This keeps your company's intellectual property safe from unauthorised individuals within your organisation or from uninvited guests outside the organisation.

GETTING ALL THE WORK DONE – FAST AND EASILY

No matter what sort of paper volumes your office or department has to deal with, the TASKalfa-620 and TASKalfa-820 can handle it. With five separate paper feeders as standard, these machines have a total capacity of upto 4,100 sheets and can handle paper weights of up to 163 g/m². If you need more, an optional high-capacity paper feeder can upgrade the machines storage capacity to a total of upto 8,100 sheets.

Base version

Two 1,500-sheet high-capacity paper feeders plus two 500-sheet universal paper feeders. Also includes a 100-sheet multi-purpose tray and a 260 sheet capacity document processor for easy one-path duplex scanning and copying as standard.

Standard configuration

Extra A4 capacity

Incorporate an additional 4,000-sheet high-capacity paper feeder for a total of 8,100 sheets.

PF-650(B)

Multi-purpose finishing

A 3,000-sheet finisher solution that staples up to 50 sheets in 4 positions.

DF-650(B)

Booklet unit

An in-house booklet solution that offers automatic folding, centre binding and saddle stitching of up to 16 sheets. Easily handles heavy stock cover pages.

BF-1 (B)

Punch unit

Makes archiving easier by allowing reports and invoices to be inserted into ring binders with either two or four rings.

PH-4C

Job separating

To separate output from different users or departments, add a convenient mailbox sorter with 5 trays.

MT- (B)

With the duplex scan you can carry out double-sided scanning in a single path – and with a scan speed of upto 110 ipm (300 dpi/A4/duplex mode). Large scanning jobs will be done fast due to the capacity of upto 260 pages. The finisher DF-650 (B) can handle up to 3,000 sheets and staple up to 50 sheets in 4 positions. And you can easily further expand your finishing options with a mailbox sorter, a punch unit or a booklet unit that can handle covers with a paper weight of upto 200 g/m².

Count on us

As one of the leading manufacturers of office document solutions, Kyocera is committed to delivering consistently high-quality products and services. We not only provide you with the most reliable hardware and software, but also offer exceptional service, comprehensive consulting and tailor-made finishing. Whatever your needs – you can count on us. Want to know more? Simply get in touch with your local KYOCERA business partner.

Flexibility, reliability and efficiency for today and tomorrow.

MONOCHROME MULTI-FUNCTIONAL FOR A3 FORMATS

The TASKalfa-620/TASKalfa-820 incorporate extremely durable components that guarantee efficient and reliable operation to meet the demanding requirements of busy office environments. The TASKalfa-620/TASKalfa-820 provide effective productivity and maximum flexibility whilst ensuring minimum impact on the environment.

TASKalfa-620/ TASKalfa-820

GENERAL

Technology	: Kyocera Laser, Mono component
Engine speed	
TASKalfa-620	: Max. 62/31 pages per minute A4/A3
TASKalfa-820	: Max. 82/41 pages per minute A4/A3
Resolution	: 1800x600 dpi or less, 256 greyscale
Time to First Copy	
TASKalfa-620	: 3.6 seconds or less
TASKalfa-820	: 2.9 seconds or less
Warm-up time	: 30 seconds or less from power on
Duplex	: Standard
Document Processor	: 200 sheet, Duplex Scan
Input Capacity	
Standard	: 2x1500 sheets A4 2x500 sheets A3-A5R
Multi-purpose Tray	: 100 sheets A3-A5R
Maximum	: 8,100 sheets
Paper Weight	: 45-200 gsm
Power Source	: AC 220-240V, 50/60Hz
Power Consumption	
TASKalfa-620	: Printing: 1,800w Ready-mode: 700w
TASKalfa-820	: Printing: 1,950w Ready-mode: 650w
Noise	
(ISO-7779/ISO9296):	: Printing: 75dB(A) Stand-by: 58dB(A)
Dimensions(WxDxH)	: 680x811 x1190 mm
Weight	: Main Unit: Approx.188kg
Certifications	: GS, TUV, CE, ISO-9001, ISO-14001

PRINT FUNCTIONS

Processor	: PowerPC 750FX / 600 MHz
Memory	: Standard 64 MB, Max.576 MB, 1 Compact Flash Card Slot
Emulations	: PCL6/PCL5e, KPDL 3, Post Script 3 Compatible
Controller Language	: PRESCRIBE
Interfaces	: High Speed bi-directional parallel (IEEE1284), USB 2.0(Hi-Speed), Fast Ethernet 10-Base-T/100 Base-TX, 2 KUIO Option Interface Slots
Features	: e-MPS-for quick copy, proof and hold, private print, job storage and job management functionality

COPY FUNCTIONS

Max. Original Size	: A3
Continuous Copying	: 1-9999
Memory	: Standard 128MB and 40GB HDD
Zoom Range	: 25-400% in 1% steps
Magnification	: 22R/9E
Digital Features	: Energy save mode, Interrupt copy, Scan once print many, eco-Print mode, Electronic sort, Rotate sort, n-Up copy, Split copy, Cover mode, Page numbering, Image overlay, Margin shift, Border erase, Positive/ negative, Mirror, Proof mode, Duplex, Booklet copy, Program(8), Department code(1000), Job building, Job reservation, Image centering, Repeat copy, Form registration, Shared data box, Synergy print box

SCAN FUNCTIONS

Functionality	: Scan-to-PC, Scan-to-email, Network TWAIN, Scan to FTP
Speed	: 110 images per minute
Resolution	: 600dpi or less
Max. Scan Size	: A3
Original Recognition	: Text, Photo, Text+Photo, OCR
Network Protocol	: TCP/IP
File Types	: TIFF, PDF
Bundle Software	: DB-Assistant, Scanner file utility, Address book, Address editor, TWAIN source

SYSTEM PLATFORM

The TASKalfa-620 and TASKalfa-820 deliver outstanding network connectivity and problem-free system administration. Kyocera's single platform technology means that the same driver can be used for every Kyocera PCL/PostScript print device in the network: from single-user desktop printers to high-end multifunctional systems. Only Kyocera offers this effort less combination of IT sophistication and high performance paper handling expertise.

KM-NET Viewer

KM-NET Viewer is an advanced network management software tool that is compatible with all Kyocera printers and multifunctional products as well as those of other vendors by using the standardized protocol SNMP. The settings of all printers on the network can be checked visually and amended from any Windows PC. KM-NET Viewer also acts as a valuable, real-time early warning system by sending e-Mail messages.

HARD-DISK

The optional Hard Disk offers even more efficient document management. At the same time it allows the management of print data with eMPS functions such as quick copy, proof and hold, private print and job storage.

OPTIONS

Printing System (W), Scan System (G)

Copy Tray C	: Paper output
PF-650(B)	: 4,000 sheets Paper Feeder-A4
DF-650(B)	: 3,000 sheets Document Finisher, Booklet staple(50 sheets)-4 position
MT-1(B)	: 5-bins x 150 sheets A4 Mailbox
BF-1(B)	: 16 sheets Booklet Folding
PH-4C	: 2/4-Hole Punch Unit
Memory	: DIMM memory (2 slots)
HD-10	: Hard Disk (40 GB)
CompactFlash card	: 1 slot
Data Security Kit(B)	: HDD Overwrite
IB-23	: 10 Base-T/100 Base-TX-Network Card

CONSUMABLES

TK-669	: Microfine toner for 55,000 pages with 6% coverage
